

I know about your reputation oh too well  
But I can keep a secret if you promise not to tell  
The odds of us actually working out are slim to none  
But I need something new and it could be you  
If you're up for that kind of fun

And everybody's telling me to turn away  
But there's something about you that makes me want to stay

Oh you look like you know of Euphoria so take me away from here  
I'll bring a pack of camels and you bring a 24 pack of beer  
Were going down to the old spot with Chevy's and drop-tops  
Blasting the radio  
And in a minute or two I'm on top of you  
And nobody has to know

Your girlfriend doesn't seem to like me much but you don't seem to mind  
Because she can make you happy but I can make you feel alive  
You know you can always call me feeling up or feeling down  
Which is probably why she holds you closer when I roll into town

And everybody's telling me to turn away  
But there's something about you that makes me want to stay

Oh you look like you know of Euphoria so take me away from here  
I'll bring a pack of camels and you bring a 24 pack of beer  
Were going down to the old spot with Chevy's and drop-tops  
Blasting the radio  
And in a minute or two I'm on top of you  
And nobody has to know
