

To be real I never really loved ya I just wanted the attention
Thought it was normal, my lack of affection
Finally I said enough is enough I'm walking in my own direction

And everyone told me "Honey whatcha doin with a boy like him?
Better wait a little longer and you'll find a man"
I knew I should have left him when I had the chance
The first time around
But like they say better late than never
And here I am feeling so much better
Not gonna let anybody slow me down

Because you - you had me stressing so hard to try to keep you
You had me stressing so hard to try to please you
Now come to think of it I really don't need you
No I don't

No I aint stressing over you anymore
No I'm not messing around with you anymore
I'm not depressed because of you anymore
Feeling my best and not with you anymore
Don't get me wrong we had a good thing going at first
But you kept doing me wrong and now I know my worth

To be real I don't follow with the chitchat
Yeah I could tell them all what happened
But where does that leave me? Looking worse than the person that I left yeah
So I'm just going to mind my own you don't deserve my recognition

And everyone told me "Honey aren't you gonna try to fire back
Get the people riled up now they're talking smack
I know a couple people that could take them out anytime anywhere"
Yeah I could accept your offer but I'll be the bigger person it'll make me stronger
And honestly I just don't care

Because you - you had me stressing so hard to try to keep you
You had me stressing so hard to try to please you
Now come to think of it I really don't need you
No I don't

No I aint stressing over you anymore

No I'm not messing around with you anymore
I'm not depressed because of you anymore
Feeling my best and not with you anymore
Don't get me wrong we had a good thing going at first
But you kept doing me wrong and now I know my worth

You're obsessed and your life is a mess with only yourself to blame
But just because you weren't raised right doesn't mean I can say the same

No I aint stressing over you anymore
No I'm not messing around with you anymore
I'm not depressed because of you anymore
Feeling my best and not with you anymore
Don't get me wrong we had a good thing going at first
But you kept doing me wrong and now I know my worth
No I aint stressing you
